Dear Geoff,
Re: Clean Marine BC- Marina Eco-rating

Many thanks for your participation in the Clean Marine BC Program. I am very pleased to inform you that following the independent certification process, Shelter Island Marina has been awarded a 2 anchor eco-rating to recognize your commitment to Marina Environmental Best Practices.

Please find enclosed a certificate to recognize this achievement and the coveted Clean Marine BC flag for you to fly at your facility. The CMBC program is one of continual improvement and I encourage you to continue to develop the Environmental Best Practices at Shelter Island. Also enclosed with this letter is the auditor's verification report which outlines some the areas which are being done well and some areas which could be worked on.

Your eco-rating certification is valid for 3 years but can be upgraded at any time. Georgia Strait Alliance is most happy to support you in whatever way we can to help you achieve further environmental goals.

Best regards,

Mike Richards
Program Coordinator – Clean Marine BC
